DID YOU KNOW ?

According to the Centers for Disease Control and Prevention:

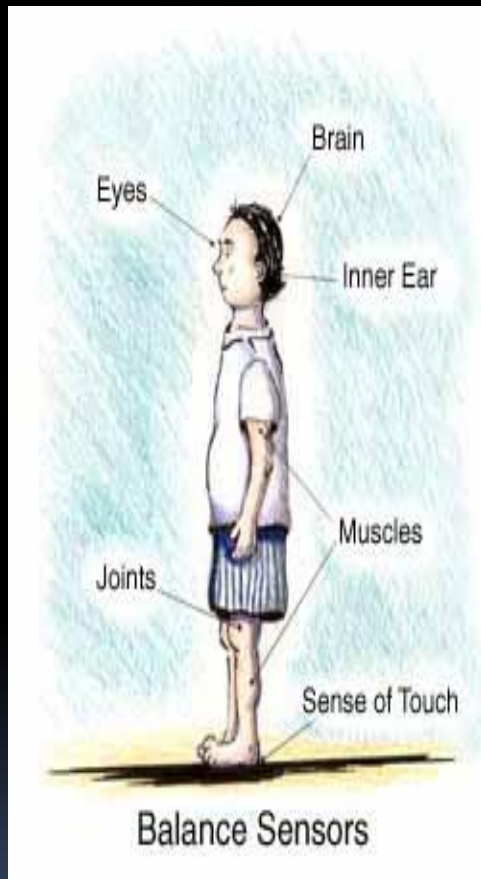

The **number 1** cause of injury among people aged 65+ is **FALLING**.

The **number 6** cause of death among people aged 65+ is **FALLING**.

Falls and falls injury are primary reasons for loss of independence among people aged 65+.

DID YOU KNOW ?

In 2006...MEDICARE and the AMERICAN GERIATRICS SOCIETY began recommending falls risk assessments for ALL people aged 65+.

MEDICARE includes a falls risk assessment in its “Welcome to Medicare Physical” & its “Annual Wellness Visit”.

DID YOU KNOW ?

Take Medicare's Fall Risk Survey Right Now !

1. Have you fallen more than once over the past 12 months ?
2. Have you been injured from a fall over the past 12 months? (Yes..bruises count !)
3. Are you fearful about falling ?

According to Medicare and the American Geriatric Society, if you answered "YES" to any of these questions...you should have a complete falls risk assessment.

DID YOU KNOW ?

In Geriatrics, falling is considered a co-morbid condition.

This means that falling is a common event in people with other chronic conditions or diseases which are being treated.

Sadly, while we are diligent about treating our conditions, i.e., diabetes, high blood pressure, Parkinsonism or arthritis...

...we often overlook the event that will place us in a hospital or nursing home...

IF YOU'RE EXPERIENCING DIZZINESS OR OTHER BALANCE ISSUES...
